

WHO IS THE

Disque Foundation?

OUR MISSION

To empower others to save lives.

We do this by providing advance healthcare education to everyone, both in the US and abroad, through the use of technology.

Through our partnership with National Health Care Provider Solutions (NHCPs), we offer the world's first free life support training courses online. Saving lives means giving others the chance to make a difference in the world. To fulfill our mission, we created the Save a Life Initiative. Our goal is to empower ten million people with the ability to save a life by 2025.

WHAT IS THE

♥ **Save a Life**.com

The idea behind the Save a Life Initiative is simple, take the same advanced life-saving training we developed for health care providers, and teach it to everyone at home and abroad. When we put the knowledge, skills and ability to perform CPR and other proven techniques to save a life in the hands of people all around the world, the power to save lives is possible.

OUR MISSION

To Empower 10 Million by 2025

Our impact throughout the years

**FREE CERTIFICATIONS
PROVIDED IN 2019:**

92,091

From 2014 to 2019
We Went From
103,370 to 1.7 Million
Lives Empowered

+94%

We have had an on-going effort to give away free certifications to those wanting to learn CPR, BLS, ACLS, PALS, or BBP.

From 2015 to 2020, NHCPS has given away \$33,874,320.00, along with AMC giving away \$898,836.00. That comes out to be nearly \$35 million in free certifications that have helped contribute to our on-going effort to empower others in saving lives.

DONATIONS

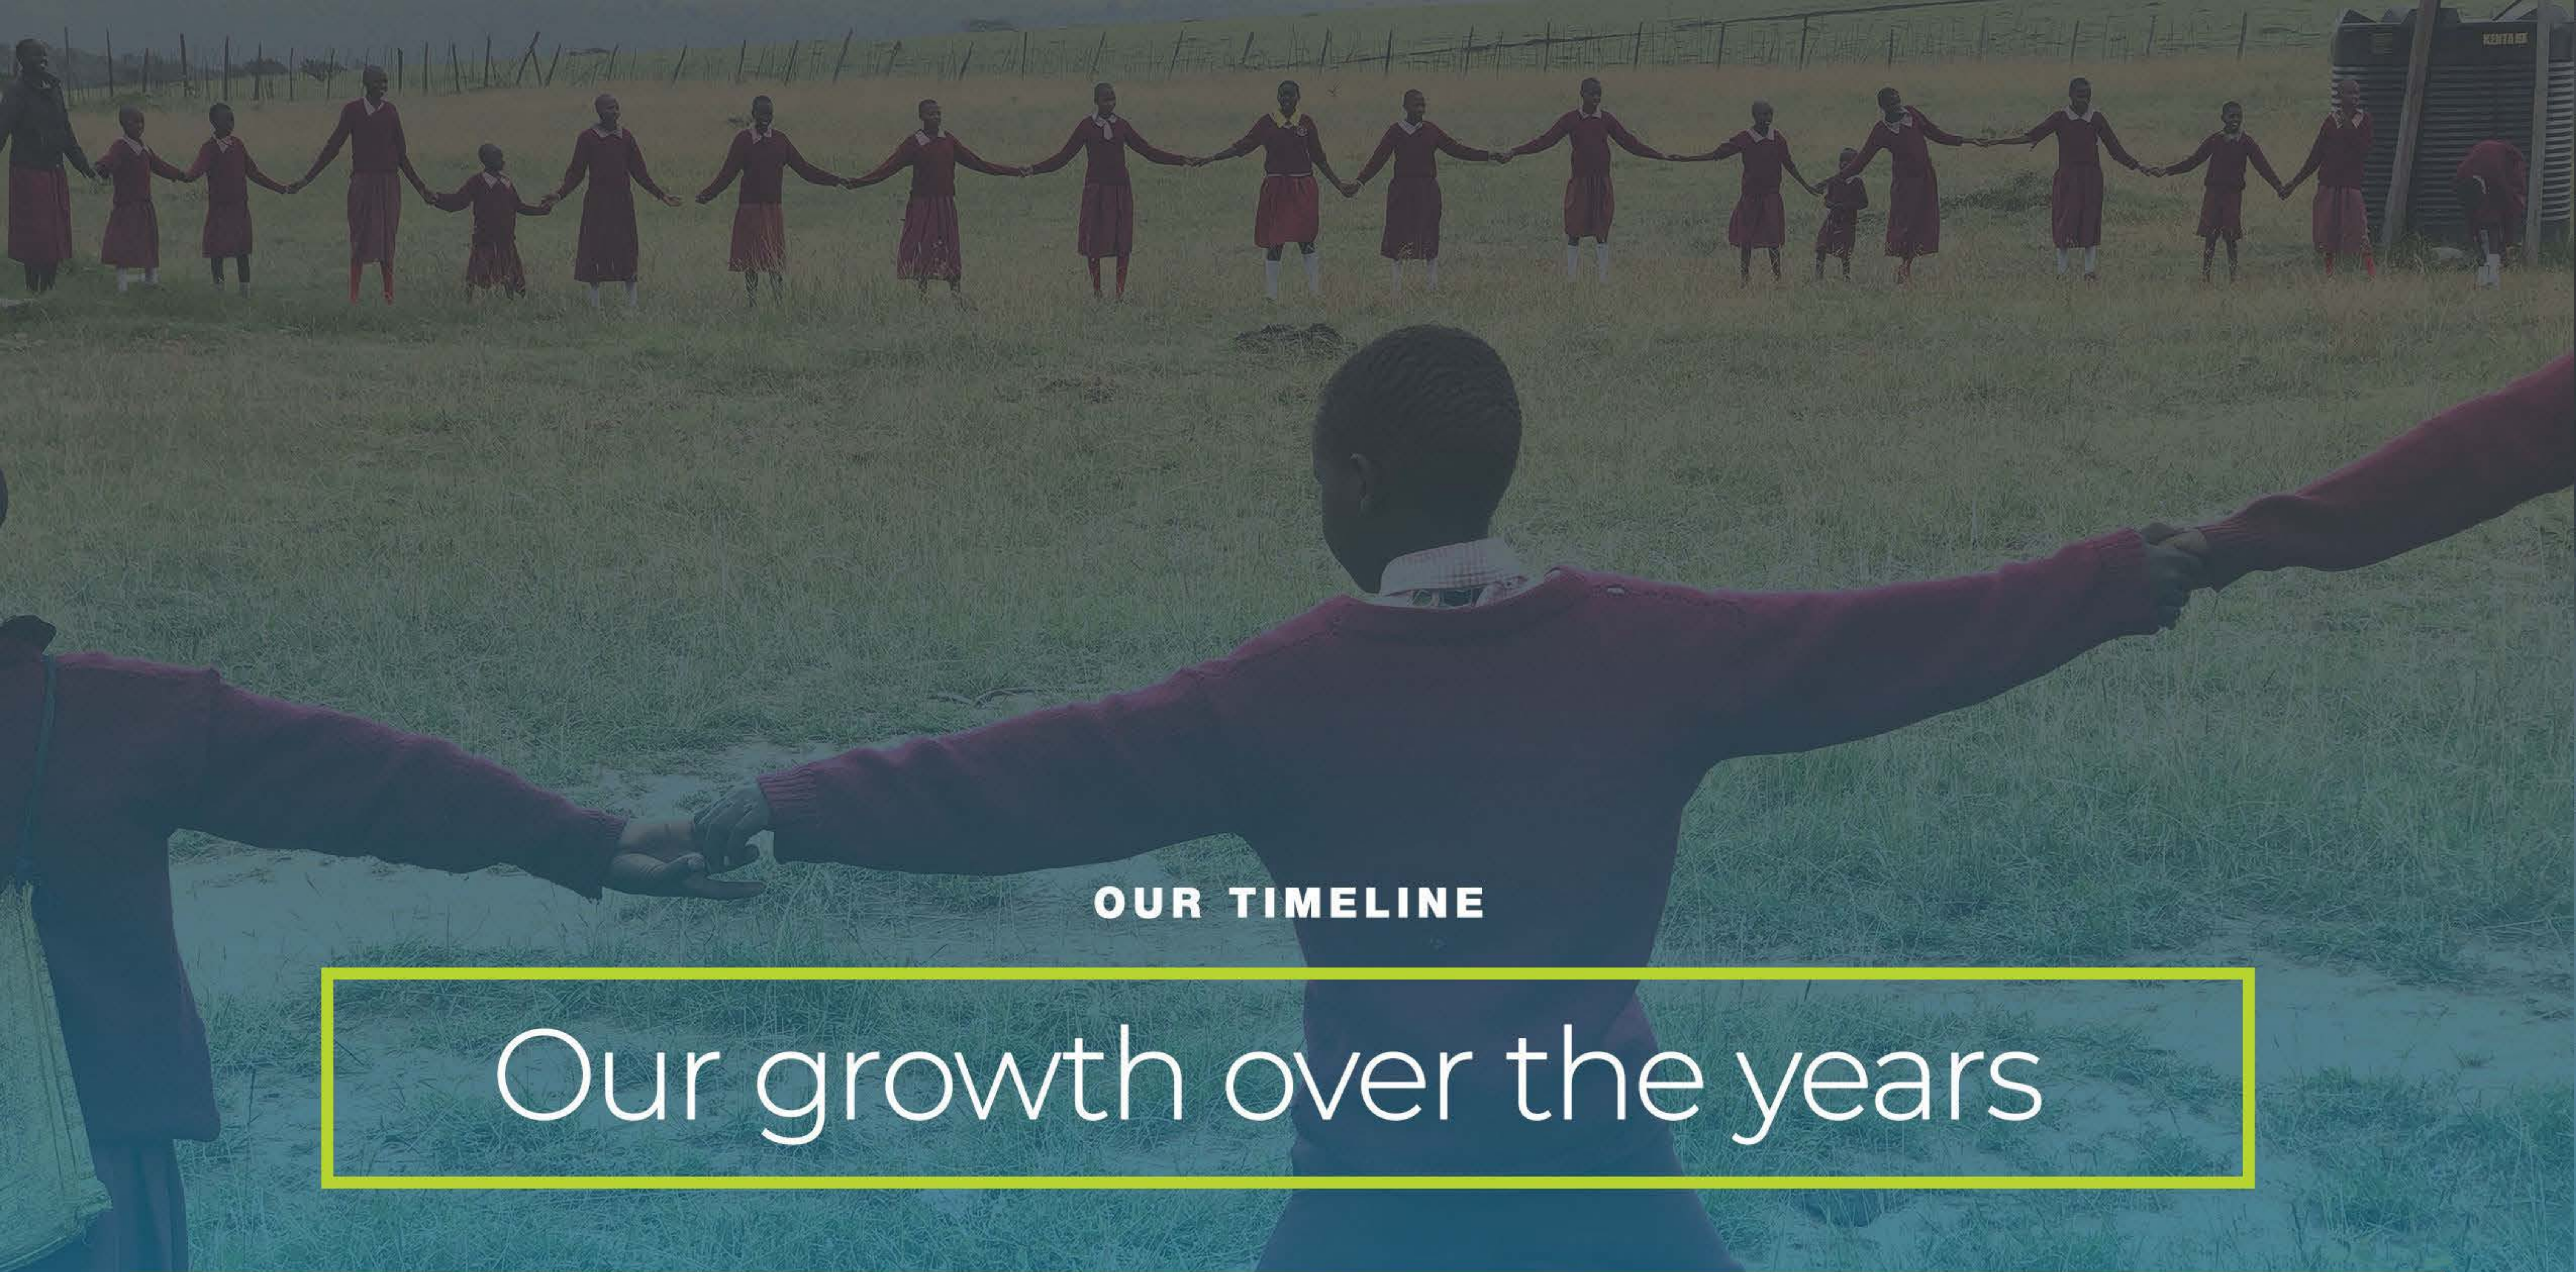

Donations fund our cause

Disque Foundation pledges
that 100% of public donations
will directly go to fund our cause.

The following core costs are covered
100% by our pledge:

- Free Certification Courses
- Free Webinar Trainings
- SALI Trainers
- Annual Foundation Trips
- Human Resources Costs

OUR TIMELINE

Our growth over the years

National Health Care Provider Solutions (NHCPs) filed as an LLC in May 2011. NHCPs was designed to solve the accessibility issues resulting from the classroom portion of traditional ACLS, PALS, and BLS courses.

Advanced Medical Certification (AMC) and NHCPs became HONCODE certified. NHCPs became the first provider of online medical education to freely provide ACLS, PALS, BLS, and CPR education on Masive Open Online MOOCs.

Dr. Disque donated a portion of Advanced Medical Certification to the Disque Foundation, which made AMC partially owned by the Foundation and no longer fully for profit.

2010

2011

2012

2014

2015

2016

After the Haiti earthquake, Dr. Disque witnessed an emergency C-section where a nurse had never received life support training, and upon receiving it was able to save the child. The idea of the Disque Foundation (DF) was born.

DF was formed as a way of empowering everyone to save a life. Satori Continuum Inc. was formed as a company to manage the DF, AMC, and NHCPs. Volume moved up to over 400 certifications a week.

Dr. Disque donated his portion of NHCPs to the DF.

Surpassed 700,00 empowered to save a life.

We reached our initial goal of empowering 1 million people to save a life in January 2019, one year ahead of schedule.

Empowering 1,495 people per day to save a life. New mission of empowering ten million individuals to save a life by 2025 set.

MediCode App became available in Spanish for free.

The team traveled to Nairobi, Kenya where a team of seven partnered with the Foundation for International Cardiac and Child Services (FICS), and together trained Kenyan medical students and other professionals in ACLS and CPR.

DF traveled to Riobamba, Ecuador to train health care providers and more than 600 community members in a variety of lifesaving techniques. Launch of SaveaLife.com, a rebrand of the company Save a Life Certifications by NHCPs.

OUR GLOBAL PARTNERS

Save a Life Initiative Partners

We wanted to call attention to—and applaud—a truly remarkable, impactful network of SALI partners around the globe helping to achieve the goal of empowering others to save lives.

We are truly grateful for and inspired by the work they do, their partnership, and their commitment to creating a better tomorrow for everyone.

HELP US

Empower People Everywhere

Through the help of committed supporters, we have the ability to grow and further our cause across the globe. Working in conjunction with NHCPS, we strive to fulfill our mission of advancing health care education to the underserved through advanced technology. We offer fast, effective and convenient online learning tools accessible anytime and anywhere.

When we put the knowledge, skills and ability to perform CPR and other proven techniques in the hands of people around the world, the potential number of lives saved is almost overwhelming.

The Disque Foundation, NHCPS, and you. Together, *let's save lives.*

PARTNER WITH US

WHAT HAVE We DONE?

The Disque Foundation began during a volunteer recovery effort after the 2010 earthquake in Haiti.

It was there that our mission to empower the underserved in health care education was born. Our Empowerment Team takes every opportunity to serve in all communities. From Louisiana to Africa, we have empowered millions to save a life.

Collaborating with several non-profits and missionaries, such as Ronald McDonald House, we are always looking for individuals and companies to partner in our mission with us.

HOW CAN YOU Join US?

Since 2016, the Disque Foundation has hosted 296 events with 54 SALI partners in 23 countries, which empowered 10,767 lives.

Let us empower your organization or team to save lives, virtually or in person! Help us spread our mission to your community by partnering with the Disque Foundation.

Take the opportunity to share your life saving stories with us, become part of our Advisory Board or become a Save a Life Trainer. Please contact us using the information below on how you can get involved.

HOW CAN WE Help YOU?

With a partnership with Disque Foundation your organization will receive:

- Live and recorded webinars for CPR, AED, and First Aid or Basic Life Support (BLS) with our medical educator.
- Free personalized course codes for your organization to have access to all course material; PDF handbooks, videos, certification exams, and individual certification cards after passing the exam.
- Free certifications can be used for any of the courses we offer.
