

WHO IS THE

# Disque Foundation?

## OUR MISSION

To empower others to save lives.

We do this by providing advanced healthcare education to everyone, both in the US and abroad, through the use of technology.

Through our partnership with Save a Life Certifications by NHCPS, we offer the world's first free life support training courses online. Saving lives means giving others the chance to make a difference in the world. To fulfill our mission, we created the Save a Life Initiative. Our goal is to empower ten million people with the ability to save a life by 2025.

WHAT IS THE

# Save a Life

INITIATIVE™

Empowered by the Disque Foundation

The idea behind the Save a Life Initiative is simple, take the same advanced life-saving training we developed for health care providers, and teach it to everyone at home and abroad. When we put the knowledge, skills and ability to perform CPR and other proven techniques to save a life in the hands of people all around the world, the power to save lives is possible.

OUR MISSION

To Empower 10 Million by 2025

Total Lives Empowered

5 Million

Countries Empowered: 184+

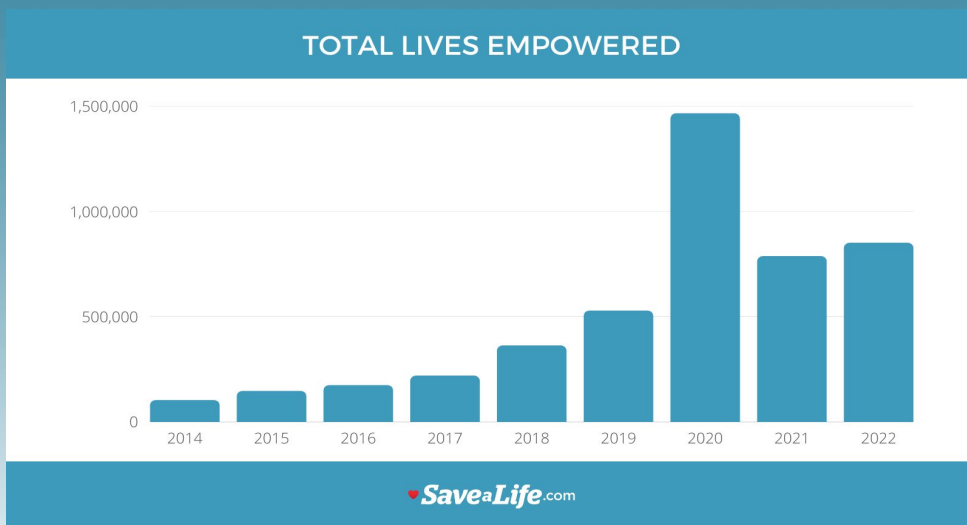

Afghanistan  
Albania  
Argentina  
Australia  
Bangladesh  
Belize  
Bulgaria  
Cambodia  
Chile  
China  
Colombia  
Costa Rica  
Dominican Republic

Ecuador

Netherlands  
Nicaragua  
Palau  
Panama  
Peru  
Romania  
South Africa  
Thailand  
And many more...

Our impact throughout the years:

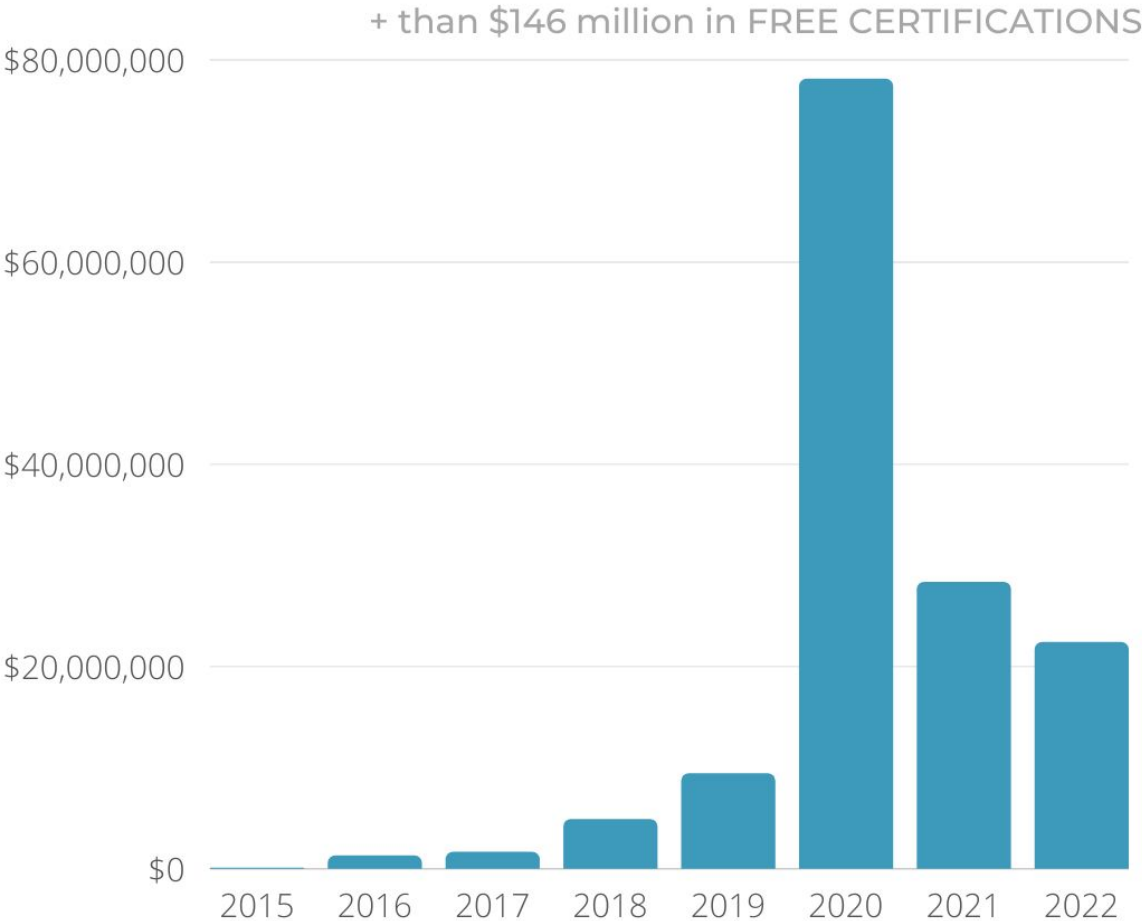

In 2022 alone, we provided 622,492 free certificates.

We have had an ongoing effort to give away free certifications to those wanting to learn CPR, BLS, ACLS, PALS, or BBP.

From 2015 to 2022, we have given away nearly **\$146 million in free certifications** that have helped contribute to our ongoing effort to empower others to save lives.

### TOTAL FREE CERTIFICATIONS

DONATIONS

# Donations Fund Our Cause

Disque Foundation pledges that 100% of public donations will directly go toward funding our cause.

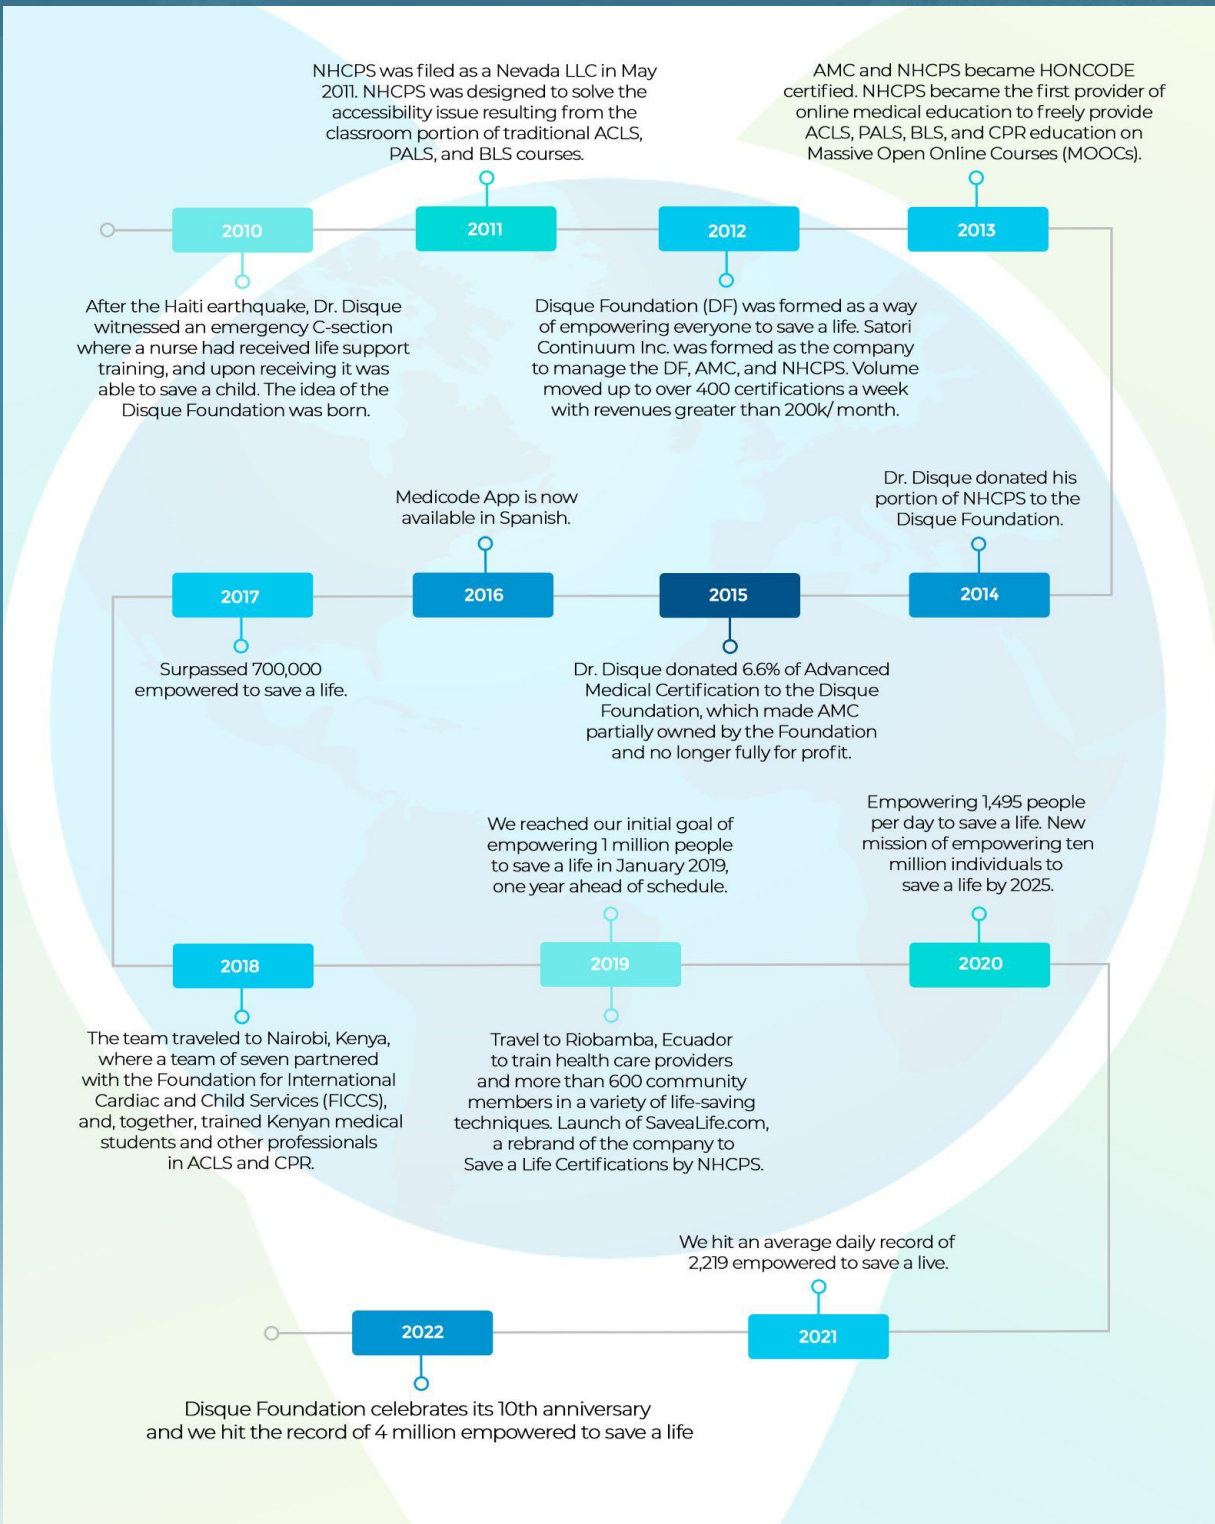

The following core costs are covered 100% by our pledge:

- Free Certification Courses
- Free Webinar Trainings
- SALI Trainers
- Annual Foundation Trips
- Human Resources Costs

## OUR TIMELINE

# Our Growth Over the Years

## OUR GLOBAL PARTNERS

# Save a Life Initiative Partners

We want to recognize the truly remarkable and impactful network of SALI Partners around the globe helping to achieve the goal of empowering others to save lives.

In 2022 alone, more than **6590 lives were empowered**, in **245 events**, through SALI Trainers!

## OUR GLOBAL PARTNERS

# Save a Life Initiative Partners

We are truly grateful and inspired by their work, partnership, and commitment to creating a better tomorrow for everyone.

# THANK YOU!

HELP US

# Empower People Everywhere

Through the help of committed supporters, we have the ability to grow and further our cause across the globe. Working in conjunction with NHCPS, we strive to fulfill our mission of advancing health care education to the underserved through advanced technology. We offer fast, effective and convenient online learning tools accessible anytime and anywhere.

When we put the knowledge, skills and ability to perform CPR and other proven techniques in the hands of people around the world, the potential number of lives saved is almost overwhelming.

The Disque Foundation, NHCPS, and you. Together, *let's save lives.*

## PARTNER WITH US

A volunteer effort to the earthquake recovery of Haiti in 2010 was the beginning of the Disque Foundation.

It was there that our mission, to empower the underserved in health care education, was born. Our Empowerment Team lives out our mission by taking every opportunity to serve, both domestically and globally, in all communities. From Louisiana to Africa, we have empowered millions to save a life. Collaborating with several non-profits and missionaries, such as Ronald McDonald House, we are always looking for individuals and companies to partner in our mission with us.

From 2016 to 2021, the Disque Foundation has hosted 509 events in 182 countries, which empowered 27, 231 lives.

Let us empower your organization or team to save lives, virtually or in person! Help us spread our mission to your community by partnering with the Disque Foundation. Take the opportunity to share your life-saving stories with us, become part of our Advisory Board or become a Save a Life Trainer. Please contact us using the information below for more on how you can get involved.

With a partnership with Disque Foundation, your organization receives:

- o Live and recorded webinars for CPR, AED and First Aid or Basic Life Support (BLS) with our medical educator.
- o Free personalized course codes for your organization to have access to all course material; PDF handbooks, videos, certification exams, and individual certification cards after passing the exam.
- o Free certifications can be used for any of the courses we offer.
